

80 METER NVIS ANTENNA

80 Meter NVIS Materials

- Two pieces of 20-24 gauge insulated wire - each 65' 7" long
- One binding post adapter
- Seven 4-foot-long wood stakes with v-notch in the top
- Two 1-foot-long wood stakes
- Two pieces of string 6-feet long

NOTES: Strip 3/4-inch off one end of each wire to connect to the binding post adapter.

Drape wire over low tree branches or taller bushes if available.
